Wild Animals: Describing the frequency of actions, Making simple inquiries, Making simple suggestions, Talking about past events (Giving explanations/reasons) and Wildlife Protection

Describes the frequency of actions and natural habits of wild animals using adverbs of frequency (E7.4.S1). · Makes simple inquiries and answers questions about wild animals' habitats, diet, size, weight and lifespan (E7.4.L1 / E7.4.R1). · Makes simple suggestions using 'should / shouldn't' and talks about past events giving explanations and reasons about extinct and endangered species (E7.4.S2 / E7.4.W1).

HATIRLAYALIM

- Sıklık zarfları (always, usually, often, sometimes, rarely, never) ve 'How often?' alışkanlıkları anlatır.
- Hayvan sorgularında Where (habitat), What (diet), How much (weight) ve How long (lifespan) kullanılır.

1 EŞLEŞTİRME

Yabani hayat (Wild Animals) kavramlarını Türkçe karşılıklarıyla eşleştiriniz.

Endangered
Nesli tehlikede · Giant panda, tiger

WILDLIFE VOCABULARY CARDS · Extinct
Soyu tükenmiş · Dodo, mammoth

Habitat
Doğal yaşam alanı
Jungle, ocean, desert

Deforestation
Ormansızlaşma · Cutting down trees

[c] 1. Endangered species
[b] 2. Become extinct / Die out
[a] 3. Natural habitat

a) Hayvanların beslenip barındığı doğal yaşam alanı
b) Soyu tamamen tükenmek, yeryüzünden yok olmak
c) Nesli tükenme tehlikesi altında olan türler

2 DOĞRU MU, YANLIŞ MI?

Wild Animals ünitesi dil bilgisi ve kelime ifadelerini Doğru/Yanlış olarak belirleyiniz.

	D	Y
'Lions never eat grass because they are carnivores' cümlesinde 'never' %0 sıklık bildirir.	☑	☐
Soyu tükenmiş Dodo kuşunu anlatırken 'Dodo birds became extinct' (Simple Past) kullanılır.	☑	☐
Doğayı korumak için 'We should destroy bamboo forests and hunt animals' önerisi yapılır.	☐	☑
'Reptiles' grubuna sürüngenler (snakes, crocodiles, lizards) dâhildir.	☑	☐

3 ÇOKTAN SEÇMELİ

«Many wild animals are in danger ___ global warming and habitat loss.» cümlesinde boşluğa hangisi gelmelidir?

(A) because of (B) how often (C) shouldn't (D) where

4 ÇOKTAN SEÇMELİ

Görseldeki Giant Panda bilgi kartına göre «How much does an adult giant panda weigh?» sorusunun cevabı hangisidir?

ANIMAL FACT FILE: GIANT PANDA
Class & Habitat & Diet
Class: Mammal · Habitat: China
Diet: Herbivore (99% Bamboo leaves)

Size, Weight & Lifespan
Weight: 100 – 150 kg · Height: 1.5 m
Lifespan: About 20 years in the wild

(A) It weighs about 100 to 150 kg.
(B) It lives in bamboo forests in China.
(C) It usually lives for 20 years in the wild.
(D) It feeds on bamboo leaves every day.

5 TABLOYU TAMAMLA

Görseldeki soru kalıplarını ve hayvan sınıflarını inceleyerek tabloyu tamamlayınız.

Where & What?
Where do they live? · What do they eat?

MAKING SIMPLE INQUIRIES (WH-QUESTIONS)
How much / tall?
How much do they weigh?
Weight (kg) & Height (m)

How long?
How long do they live? · Lifespan (years)

İngilizce Soru / Grup	Ölçtüğü Bilgi / Özellik	Örnek Cevap
Where do eagles live?	Habitat (Yaşam alanı)	High mountains and forests
How long do elephants live?	Lifespan (Ortalama ömür)	About 60 to 70 years
Carnivores (Lions, Tigers)	Diet (Beslenme şekli)	They only eat meat (other animals)

6 BOŞLUK DOLDURMA

Cümlelerdeki boşlukları uygun İngilizce kelimelerle tamamlayınız.

extinct | shouldn't | for | should

1. We **should** protect wild animals and plant more trees to save nature.
2. Mammoths and dinosaurs became **extinct** thousands of years ago.
3. People hunted dodo birds **for** their meat and feathers.

7 ÇOKTAN SEÇMELİ

Görseldeki sıklık zarfları tablosuna göre «Tigers usually hunt alone at night» cümlesi hangi soruya cevaptır?

Always (100%)
Lions always eat meat · Carnivore habit

ADVERBS OF FREQUENCY IN WILDLIFE ·
Usually (80%)
Tigers usually hunt alone at night

Sometimes (40%)
Bears sometimes eat fish and honey

Never (0%)
Snakes never have legs or wings

A) How often ve when do tigers hunt alone?
B) How tall is an adult Siberian tiger?
C) Where did Tasmanian tigers die out?
D) How much meat does a lion eat?

8 ŞİFRELİ KELİME

İpuçlarından yararlanarak kelimeleri bulunuz ve yabani hayvanların yaşadığı orman şifresini çözünüz.

Eagles and hawks have sharp wings and white ..... (tüy) — F E A T H E R
Aşı ve aşırı avlanma: Illegal hunting is called .....hunting — O V E R H U N T I N G

C) We should keep the seas clean for dolphins and whales.
D) We should plant trees to prevent deforestation.

11 KISA CEVAP

Görseldeki Dodo Bird kartına göre Dodo kuşlarının soyu ne zaman ve hangi sebeple tükenmiştir?

Habitat & Feature
Mauritius Island · A flightless bird

EXTINCT ANIMAL PROFILE: THE DODO BIRD
When Extinct?
Died out in 1681 · 17th century (Past)

Why Extinct?
Overhunted by sailors · Habitat destruction

They became extinct in the 17th century (1681) because.

12 SIRALAMA

Nesli tehlikedeki bir hayvan türünü kurtarmak için izlenecek adımları mantıksal sıraya koyunuz.

STEPS TO SAVE ENDANGERED SPECIES

1. Identify: Find endangered animal species

2. Stop Hunting
Ban illegal hunting and fur trade

3. Save Habitat: Protect forests and oceans

4. Recover
Increase number in wildlife parks

2 Stopping illegal hunting (overhunting) and fur trade
3 Protecting and restoring their natural forest habitats
1 Identifying endangered species and their population size
4 Increasing the animal population safely in wildlife parks
